Microbe-Lift/PL

Specially Formulated for Decorative Fish Ponds, Lagoons & Smaller Water Features

Microbe-Lift/PL creates a healthy pond environment promoting faster fish growth, reducing ammonia and nitrogen levels, noxious odors caused by dead algae, fish fecal matter and urine and the buildup of fish food, bird droppings and dead leaves. It dissolves away organic sludge and seeds and maintains biological filters. **ORDER CODE: 1OPLQ**

Continued biological activity even in water temperatures under 55°F. (12°C.)

Microbe-Lift TheraP

Specially Formulated for Promoting Fish Health

Microbe-Lift/TheraP provides a natural pond eco-system, resulting in better overall fish health & improved water quality. It biologically supports a healthy immune system, promoting rapid fish growth and increasing resistance to pathogens and parasites. It oxidizes both ammonia and nitrites, also reducing nitrates and is safe for all animals in and around the pond. **ORDER CODE: THERAPQ**

For use with ornamental, coldwater, temperate, cyprinids, native & wild species.

Microbe-Lift Autumn/Winter Prep

Specially Formulated for Pond Winterization

A 2-part program providing the most effective winter pond maintenance available. Microbe-Lift Autumn/Winter Prep will continue to provide sustained biological activity even in water temperatures under 55°F. (12°C.). It helps jump start your pond to a healthier environment in the spring while reducing the buildup of dead leaves and organic sediment all winter long. It is effective in darker conditions -under ice and snow- and, if frozen, the bacteria will remain effective even after thawing. **ORDER CODE: AUTPREP**

Manufactured by Ecological Laboratories, Inc.

Microbe-Lift/Soy-Based Cleaner

Cleans All Vinyl, Rubber, Polyethylene, EPDM, Butyl & Plastic Surfaces

Microbe-Lift/Soy-Based Cleaner is an eco-friendly blend of soy-based chemistry that safely cleans pond liners, preformed ponds, pond containers, plant containers of organic debris, mineral deposits and scum build-up. It will help correct mineral problems such as scaling, staining and water discolorations and is not harmful to fish or other aquatic life. **ORDER CODE: SC32**

Microbe-Lift/Barley Straw Pellets+

Specially Formulated for Natural Pond Bio-Augmentation

Microbe-Lift/Barley Straw Pellets+ is a major scientific breakthrough! It's 100% natural and organic ingredients improve water clarity. Its revolutionary formula -including natural peats and humates-disperses quickly and provides a slow, steady release of beneficial ingredients by natural, biological activity. Use with Microbe-Lift Bacterial and Enzymatic pond products. **ORDER CODE: 1OBSPP4.4**

4.4lb bag featured. Other sizes available, as well as 25lb. bucket for larger ponds by special order only.
