

Garden Ponds

Fairfield Garden Center is Your #1 Source for Water Gardening Products

A beautiful pond enhances any garden, providing a tranquil setting for hours of relaxation. These pre-formed garden ponds are made of durable, heavy-duty polyethylene and resist fading, cracking and chipping. Some models feature two depths for a variety of water plants. 18" depths provide a year-round habitat for fish. Ideal for use with fountains, statuary and waterfalls. Sorry we do not ship pre-formed ponds.
